SUMMARY

Aspiring Computer Science (AI & ML) student with hands-on experience in web development and deep learning projects. Skilled in Python, JavaScript, and TensorFlow, with a strong interest in building intelligent and scalable applications. Strong interest in Generative AI with foundational knowledge in Cybersecurity.

EDUCATION

B.Tech in Computer Science (AI & ML)
Amritasai Institute of Science and Technology | 2026
CGPA: 7.33

Senior Secondary (Class 12)
Sri Sarada Junior College, Vijayawada | 2022
Score: 640/1000

Secondary (Class 10)
Vijanana Vihara (EM) High School, Nutakki
Score: 443/600

EXPERIENCE

Web Development Intern - Codec Technologies (Remote)
April 2025 - May 2025

- Collaborated with team members to develop web-based applications
- Worked with HTML, CSS, JavaScript, and Git
- Improved debugging and problem-solving skills

PROJECTS

- **FACIAL EMOTION RECOGNITION USING AI & DEEP LEARNING**
  Developed a deep learning model using Python and TensorFlow for emotion detection
  Applied CNN and image processing techniques
  Achieved ~85% accuracy in emotion classification

  Countdown Timer (HTML, CSS, JavaScript)
  Built a responsive countdown timer with dynamic time updates
  Implemented DOM manipulation and event handling

- **BACKGROUND GENERATOR Using HTML, CSS**
  Designed a UI tool to generate gradient backgrounds dynamically
  Improved understanding of CSS styling and user interaction

SKILLS

Programming Languages: Python, Java, C

Web Technologies: HTML5, CSS3, JavaScript

AI/ML Tools: TensorFlow, NumPy, OpenCV

Tools: Git, VS Code, Generative AI Tools (ChatGPT, Claude)

Other Skills: Problem Solving, Data Analysis

CERTIFICATIONS

Tata Data Visualization - Forage (May 2025)

- Created dashboards and visual insights for business decision-making

GenAI for Professionals - Udemy (May 2025)

- Learned prompt engineering and real-world AI applications

Introduction to Modern AI - Cisco (May 2025)

- Explored AI concepts including chatbots and computer vision
